

CURB MOUNTED SOLAR ATTIC FAN

The Environmentally Sensible Solution that can SAVE you Money!

*Attic venting is an important aspect in maintaining a healthy energy efficient home or work place. Proper venting cools your roof extending the material life and reduces the load on your air conditioning system. Attic venting also increases fresh air circulation. Powered completely by free solar energy, this sleek and efficient vent is both compact and quiet. It was designed specifically for curb mounted applications for either commercial use or for residential homes. Fully operational right from the box, it installs easily, with no electrical wiring. And let's not forget powerful! Operating up to 1,275 cfm, a 20 watt unit can fully vent up to 2,000 sq. ft while the 30 watt vents up to 2,500 sq. ft. (1,550 cfm). And the **NEW** 50 watt remote solar panel unit, operating up to 1,900 cfm, can fully vent up to 3,100 sq. ft.*
